Checkpoint 7 Sprint review 5 - Marcio 13-06-2022

Kluijtmans, Lars L. 2 minutes ago

My security repost needs to be in a separate document not in the design document.
Looked over my documentation and noticed that I'm still missing a test case document.
Talked about how to connect two docker containers.

Describe what goes well according to your teacher, what you should pay more attention to and what is your next step to achieve the learning outcomes...

Checkpoint 6 Marcio 09-05-2022

Kluijtmans, Lars L. a month ago

feedback on research document (questions, research methods).
feedback on test plan and test cases(what to include in the document).
feedback on architecture document (new deliverables this sprint).
resolve some errors in SonarQube.

Checkpoint 5 Sprint Review 3 - Marcio 25-04-2022

⚠ No feedback submitted.

Checkpoint 4 Tim 29-03-2022

Kluijtmans, Lars L. 3 months ago

We discussed the current state of my project, what to do next and what to leave for later. I got some feedback on my architecture and looked at the C4. We also talked about research questions and decided to change them to "The sending of a model is unsafe and slow what options are there to fix that." and "Are there any ways to identify different products without using a integer".

Checkpoint 3 Marcio 21-03-2022

Kluijtmans, Lars L. 3 months ago

In our meeting we discussed the deliverables this sprint, mainly the architecture document. We also talked about the research document and possible things to research for it. I also got some help with my code mainly some problems I had with axios.

Checkpoint 2 Marcio 25-02-2022  

 No feedback submitted.

Checkpoint 1 Tim 10-02-2022  

 **Kluijtmans, Lars L.** 4 months ago
We talked about the user stories I made and how to improve them (include more details in the acceptance criteria).
We talked about the database diagram and how to improve it (not storing user data that is not needed and having less fields in the product table that may not be applicable to all different products)
